## Tom's Secret Formula

products are earth friendly and biodegradable. All of these products are specially formulated with 100 percent USA-grown, renewable natural vegetable oils and selective additives, and do not contain any chlorine or regulated toxins.

## B-404 ALL-PURPOSE LUBRICANT

is an industry leading high performance all-purpose lubricant. Since B-404 is designed to cling to surfaces and not evaporate, it provides longer lasting lubrication than conventional petroleum-based lubricants. B-404 helps increase productivity in many different applications. It is great for lubricating moving parts, loosening rusted and frozen bolts, blocking moisture and preventing rust from forming on any metal object.

## TRUCKERS' LUBRICANT

is a high-performance mechanical lubricant. Truckers' Lubricant surpasses the lubricity and performance of other, traditional mechanical lubricants. The specialized formula allows Truckers' Lubricant to cling to surfaces, which helps to reduce waste and makes clean up easier. Truckers' Lubricant is designed for use on tandem slides and rollers, rails, lock pins, hinge pins for swing doors, track and rollers for roll-up doors and cargo load locks.

## HIGH PERFORMANCE PIPE THREAD LUBRICANT

is a premium threading lubricant. High Performance Pipe Thread Lubricant out performs conventional petroleum-based lubricants for a longer tool life and increased productivity. It is non-staining to yellow metals and may be used for machining both ferrous and non-ferrous metal alloys. High Performance Pipe Thread Lubricant is designed for mechanical contracting projects, sprinkler systems, internally and externally using taps, dies or chasers and high-end cutting of stainless steel.

## GARAGE DOOR LUBRICANT

is a high-performance garage door lubricant for commercial and residential use. Garage Door Lubricant surpasses the lubricity and performance of other conventional garage door lubricants. Garage Door Lubricant is designed for lubricating rollers, hinges, springs, bearings, cables, locks and roller chains, loosening rusted and frozen bolts and nuts and preventing rust from forming around any garage door part.

## CUTTING OIL

is a high performance cutting fluid. Cutting Oil surpasses the lubricity and performance of other conventional metalworking fluids and helps prevent equipment from overheating, which can ruin workable metal pieces. Cutting Oil is designed for use in metalworking such as for general purpose cutting and grinding, milling, tapping and reaming, gear cutting, broaching, gun drilling, screw machining, and sharpening high-speed steel and carbide cutting tools.

# PRODUCTS

## CAMIE 363

is a high-strength fast task spray adhesive that can be used to bond objects to many hard-to-bond surfaces with low soak-in. It is especially formulated to bond polyethylene to itself, concrete blocks, wood and many hard-to-bond surfaces. It may also be used to bond paper, cardboard, carpet, fabric, urethane foam, foil, metal, wood, and most plastics to itself and a variety of other substrates. Camie 363 may be used either for permanent or temporary bonds and it is ideal for label applications.

## CAMIE 373

is a high-performance adhesive especially formulated to exhibit fast, aggressive tack with low soak-in for long lasting bonds. It can be applied to such substrates as foam, cloth, felt, cardboard and paper. Camie 373 is excellent for a variety of jobs for industry, displays and fixtures. It can be used to bond lightweight materials to a variety of substrates or themselves. Camie 373 can offer temporary or permanent bonds. It is non-staining and water white in color.

## CAMIE 393

is headliner, trim and laminating adhesive formulated to bond substrates that require either high bond strength and/or need elevated temperature resistance. Camie 393 also exhibits excellent green strength and water resistance.

## CAMIE 610

is a silicone release spray that prevents sticking in gluing, sealing and molding operations. It is a universal plastic mold release agent that prevents the adhesion of tape, glue, rubber, wax and other sticky material on non-porous substrates.

## CAMIE 22/80

is a citrus cleaner that can be used as a degreaser and adhesive remover on many substrates. It is non-corrosive and has a pleasant citrus scent. Camie 22/80 removes adhesive, oil stains, road tar, rubber marks, decals, stickers, heel marks, graffiti, lipstick, release agents and soap films, and degreases equipment. It is recommended for use where chlorinated solvents cannot be used.

**Camie-Campbell, Inc.** has been manufacturing and packaging high quality products for more than 50 years. Camie manufactures a number of adhesives, silicone lubricants, cleaners and degreasers, and release agents for various industries including construction, upholstery, carpet, sewing, furniture and screen-printing. They also offer specialty formulations and private label products.

## CAMIE 22/90

is a heavy-duty cleaner and degreaser formulated as a strong, effective cleaner where a build-up of grease, oil, grime, paint, adhesive, or other unwanted substances is encountered. Camie 22/90 effectively removes adhesive and adhesive overspray. It is a non-corrosive, strong action product that can be sprayed on surfaces to break down, wash away and clean grease from equipment, floors, work areas, engines, metal parts and any other area needing to be cleaned.
