Camie-Campbell's New Biodegradable Lubricants Available at PartSource Stores
Tom's Secret Formula line includes three environmentally friendly products

St. Louis (May 2009) – Camie-Campbell announces its partnership with PartSource. PartSource, a leading Canadian automotive retailer with more than 80 stores in four provinces, will now carry Camie-Campbell's line of environmentally friendly, biodegradable lubricants, Tom's Secret Formula. Products in the line include B-404, an all-purpose lubricant, Truckers' Lubricant, a mechanical lubricant, and Garage Door Lubricant.

"PartSource has a fantastic tradition of offering its customers professional service, quality products and affordable prices," said Mike Polizzi, National Sales Manager of Tom's Secret Formula. "We are thrilled to provide our biodegradable lubricants to Canadian consumers."

The earth-friendly product line provides an alternative to traditional petroleum-based lubricants. Each Tom's Secret Formula lubricant is formulated with natural vegetable oils and has a variety of functions. All three products will be available in 326-gram size, while B-404 will also be available in a smaller 85-gram can.

The line is user-friendly and is designed for both do-it-yourselfers and professionals in the automotive industry. One feature of the can is its 360-degree spray ability that allows users to fulfill their lubrication needs from any angle.

- B-404 is an all-purpose lubricant that is safe for all types of metal. It clings to surfaces and does not evaporate, which enables B-404 to provide a longer lasting effect compared to traditional petroleum based lubricants. In addition, it is an excellent tool for loosening rusted or frozen bolts and nuts.
- Garage Door Lubricant, which has commercial and residential uses, surpasses the lubricity and performance of traditional garage door lubricants.
- Truckers' Lubricant is a high performance mechanical lubricant specialized to cling to surfaces, reducing waste and clean up. It has a variety of uses from hinge pins, to tracks and rollers for roll-up doors, to cargo load docks.

"We are ecstatic to carry this line of environmentally conscious products," said Mike Selman, Category Manager of Car Care and Accessories at PartSource. "We have seen an increasing consumer demand for earth-friendly products and I know that Tom's Secret Formula will become a fast-favorite."
